d is made for greater ease in  
s correspond in position to the  
they are named. The fissures  
lobes are indicated in Fig. 61.  
the fissure of *Rolando*, and the  
*Anterior* lobe is that part of the  
vius and in front of the fissure  
with the fissure of *Rolando* and  
*Temporal* lobe is the wedge-shaped  
al fissure; the *Temporal* lobe is  
the only one of the lobes which  
4.  
em of much interest in compar  
nctions is whether there is di  
pars of the cortex. Do certain  
cial functions, or are all cortical  
s? The head of the rib fits into
